

School for Deaf Students in Kampala

This school is one of the most inspirational schools we have ever supported. We learned of them as we support children from a deaf unit in a school in Lucca just outside Jinja. It was clear that these children were thriving but when the time came for them to leave primary school, they were unable to find anywhere suitable to study. We do not normally sponsor individual students but it was clear that if we didn't help these remarkable young people, they had no chance of furthering their education. The boarding school in Kampala is an amazing place where all students learn a vocational skill as well as academic studies, they are integrated into the community, and gain apprentices in the local area. They gain not only a skill for life to support themselves but also confidence and a sense of self-worth and acceptance.
